

Going to trial?
You want
us in the
"hot seat."

**Focus on your arguments.
Leave the technology to us.**

Our Trial Technology Specialists are well versed in state-of-the-art technology, seasoned in the demands of trial and keenly conditioned to the nuance of courtroom protocol and procedure.

Our Trial Techs have spent more than **6,000 days** in the "hot seat" supporting high-stakes trials in both state and federal venues nationwide.

They are accustomed to walking into high pressure environments and instilling calm in the courtroom and war room.

Their round-the-clock presence and dedication ensures they are ready when you are. Whether rehearsing with a witness or troubleshooting A/V equipment, we make sure your presentation goes smoothly.

Pre-Trial Preparation

- Provide equipment recommendations and set-up
- Create trial presentation database
- Scan/load documents and graphics
- Synchronize deposition transcript to video
- Create clip designations and edit deposition video and/or audio clips based on trial team directives

In the War Room

- Update and manage trial presentation database
- Taking direction from the trial team, prepare document highlights and annotations
- Run through presentations with trial team

In the Courtroom

- Provide on-demand access to documents, transcripts, videos, photos, graphics and animations
- Responsive to "off script" changes during trial
- Perform seamless, on-the-fly document highlights, annotations and side-by-side comparisons based on trial team directives

About Our Techs

- In the "hot seat" an average of 200 days a year
- Handle engagements ranging from month-long trials to simple one-day proceedings
- Average of 10 years' experience supporting trials, arbitrations and mock jury exercises
- Integrate with trial team's own culture and style
- Understand courthouse logistics and judicial preferences around the country

**With more than 500 years of collective trial experience...
Been there. Done that.**
